IDENTIFIERS *State University of New York

ABSTRACT

Detailed fall 1982 data, and summary data for fall 1974-1982, are presented on the utilization of residence hall facilities at campuses of the State University of New York (excluding community colleges). Trend data are displayed for each institution and institution type. Graphic displays of percent utilization of residence hall facilities are included for the first time. The four tables of data for fall 1982 are as follows: aggregated data that describe the original capacity of the residence hall facilities, the reduction or temporary adjustments to this original capacity, and net available space and actual utilization; (2) more detailed data concerning the types of utilization of net available space, with resident student utilization as well as other types of utilization arrayed in categories; (3) resident student utilization arrayed by institution, type of accommodation, and rate paid by the students; and (4) displays by institution, the distribution of resident assistant bed rental waivers, total student occupancy, the resident student factor with which the number of authorized bed rental waivers is calculated, and the ratio of resident students to resident assistants. In addition to the statistical data, a brief narrative summary and definitions are included. (SW)

----------------------------	----

PREFACE

This report of Utilization of Residence Hall Facilities consists of detailed data collected in the ninth annual survey of Fall 1982, as well as summary data from Fall 1974 through Fall 1982. Detailed tables for Fall 1974, Fall 1975, Fall 1976, Fall 1977, Fall 1978, Fall 1979, Fall 1980 and Fall 1981 are available in earlier reports published by this office (see Publications List, page 29). Details regarding the residence hall program are crucial in the planning and budgetary functions of each institution. While the survey was specifically designed to meet the data requirements of the State University Central Administration Offices of Finance and Business and Academic Services, requests for these data have subsequently come from many sectors both inside and outside of the State University.

The study includes all State-operated/funded institutions which have residence hall facilities. A listing of these institutions, organized by institution types can be found on page vi; reference to institution type in this publication, therefore, includes only those institutions listed. Any residence hall facilities available at locally sponsored Community Colleges under the program of the State University of New York are financed in a different manner and are not included in the study.

This year, graphic displays of percent utilization of residence hall facilities are included for the first time. Trend data is displayed for each institution, as well as Fall 1982 utilization by institution within institution type.

A study of this complexity could not have been completed without the full cooperation of the institutional respondents, other Central Staff Offices, and the professional, statistical and typing staff of the Central Staff Office of Institutional Research and Analytical Studies.

INTRODUCTION

The methodology and definitions used in this study have been developed to be consistent with the University Guidelines for Utilization of Residence Hall Facilities and the State University of New York Policies and Procedures Manual. Definitions of the basic concepts used in this report are provided beginning on page xi.

The four tables of data for Fall 1982 may be described as follows:

Table 6 presents aggregated data which describe the original capacity of the residence hall facilities, the reductions or temporary adjustments to this original capacity, net available space and actual utilization.

Table 7 provides more detailed data concerning the types of utilization of net available space depicted in Table 6. Resident student utilization as well as other types of utilization are arrayed in categories, as described in the column headings.

Table 8 focuses on resident student utilization summarized on Table 7. Data are arrayed by institution, type of accommodation and rate paid by the students.

Table 9 displays, by institution, the distribution of Resident Assistant Bed Rental Waivers, total student occupancy, the R.A. factor with which the number of authorized bed rental waivers is calculated and the ratio of resident students to resident assistants.

The summary tables depict important segments of these data concerning utilization of residence hall facilities from Fall 1974 through Fall 1982. Trends in data reported to Central Office during the nine years of this study are shown in five separate tables covering: total utilization (headcount), percent utilization, non-revenue assignments, revenue producing utilization for purposes other than resident student occupancy (bedcount) and the ratio of students to Resident Assistants. The definitions over the nine year period are consistent with those described beginning on page xi.

SUMMARY OF DATA

In the Fall of 1982, the total current utilization of residence hall facilities (headcount) was reported to be 65,132. This utilization represents a slight decrease in utilization compared to the Fall 1981 utilization (see below and see Tables 1 and 6). The net revenue adjusted design capacity for the Fall of 1982 was reported to be 62,484 bedcount.

Summary of Utilization of Original Design
Capacity of Residence Hall Facilities
State-operated/funded Institutions,
State University of New York
Fall 1974 Through Fall 1982

Year	Original design capacity (bedcount)	Net revenue producing adjusted design capacity (bedcount)	Total utilization (headcount)	Percent utilization of net revenue producing adjusted design capacity
Fall 1974	66,121	60,854	60,672	99.7
Fall 1975	66,121	60,785	62,025	102.7
Fall 1976	66,521	61,792	61,440	99.4
Fall 1977	66,569	61,453	62,339	101.4
Fall 1978	66,569	61,095	63,283	103.6
Fall 1979	66,569	61,183	64,606	105.6
Fall 1980	66,569	61,192	66,003	106.6
Fall 1981	67,569	62,290	65,210	104.7
Fall 1982	67,965	62,484	65,132	104.2

Of the total utilization, 64,698 or 99.3 percent was for resident student utilization.

The average number of students per resident assistant has remained relatively constant for the past eight years (see Tables 5 and 9).

Revenue producing utilization of residence halls for purposes other than resident student occupancy continue to decline. This bedcount has been reduced from 1,351 in Fall 1974 to 443 in Fall 1982 (see Table 4). This trend corresponds with the State University's Guidelines which give first priority for utilization of residence halls to the housing needs of students.

Percent utilization of net revenue producing adjusted design capacity was reported to be 104.2 percent in the Fall of 1982. This utilization represents a 0.5 percent decrease from the reported 104.7 percent utilization in Fall 1981 (see Tables 2 and 6). In the Fall of 1982 eighteen of the twenty-five institutions surveyed report utilization of greater than 100 percent while four other institutions report utilization ranging from 96.9 percent to 100 percent. The Agricultural and Technical Colleges continue to show a net utilization of greater than 100 percent occupancy. Fall 1982 data indicate an occupancy of 117.2 percent at these colleges (see Tables 2 and 6).

DEFINITIONS

Residential Capacity Descriptors

BEDCOUNT--a unit of measure used to describe the capacity of the facility for residential purposes.

ORIGINAL DESIGN CAPACITY--the original residential capacity of the facility (expressed as BEDCOUNT*) as determined by architectural plans.

ADDITIONS TO ORIGINAL DESIGN CAPACITY--permanent conversions of on-campus facilities which increase their residential capacity (expressed as BEDCOUNT).

NON-REVENUE ASSIGNMENTS--residential capacity (expressed as BEDCOUNT) exempted from revenue production for special uses such as for RESIDENT ASSISTANTS. These assignments are subject to annual review by Central Administration.

NET REVENUE PRODUCING ADJUSTED DESIGN CAPACITY--the capacity of the facility expressed as BEDCOUNT, available for revenue producing uses. (ORIGINAL DESIGN CAPACITY, less NON-REVENUE ASSIGNMENTS, plus ADDITIONS TO ORIGINAL DESIGN.)

Actual Occupancy/Use Descriptors

HEADCOUNT--a measure of use which is the number of students or other persons occupying the facilities for residential purposes; or if the use of a facility is not residential (e.g. office space), then its use is expressed in terms of HEADCOUNT is the number of students displaced by the use of the facility for other purposes.

RESIDENT STUDENT OCCUPANCY--the HEADCOUNT of enrolled students and their spouses who reside in residence hall facilities. (This excludes RESIDENT ASSISTANTS.)

RESIDENT ASSISTANTS--students assigned to and residing in residence hall facilities for the purpose of peer counseling and the betterment of the quality of life within the residence hall complex. The BEDCOUNT Of facilities dedicated for RESIDENT ASSISTANT occupancy is exempted wholly or in part from revenue production.

OTHER USES--uses of residence hall facilities for non-residential purposes such as office space or classrooms, or for residential use by students from other colleges or special non-student residential occupancy.

*Terms in capital letters are defined elsewhere in the "DEFINITIONS".

DEFINITIONS
(Continued)

Utilization Indices

CURRENT UTILIZATION--the total actual utilization (expressed as HEADCOUNT) of an occupied facility's available revenue producing capacity. This is the sum of total RESIDENT STUDENT OCCUPANCY and total OTHER USES.

NET UTILIZATION--the CURRENT UTILIZATION less NET REVENUE PRODUCING ADJUSTED DESIGN CAPACITY. This figure is negative (-) if the facility is under-utilized and positive (+) if the facility is over-utilized.

^aThe students reported as Resident assistants perform a range of assignments which vary in type and degree of commitment. Therefore, the ratios shown here do not necessarily reflect differences in Resident Assistant services available to students.

^bExcludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

^cCalculation excludes Downstate Medical Center and Maritime which did not have Resident Assistants.

^dCalculation excludes Downstate Medical Center which did not have Resident Assistants.

Maritime	900	-	-	- 33	- 33	-	867	887	+ 20	102.3

^aExcludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

^bAs reported by each institution, including assignments pending review by Central Administration, which is responsible for the approval of such assignments.

^cNet utilization equals current utilization less net revenue producing adjusted design capacity.

^dIncludes students accommodated in lounges, study rooms and other spaces not reflected in design capacity. Actual Headcount: Albany 11;

Binghamton 86; Oswego 95; Potsdam 143; Purchase 73; Alfred Ag. & Tech. 163; Delhi Ag. & Tech. 130; Farmingdale Ag. & Tech. 52.

^eIncludes 3rd bed in 3-bed apartments assigned to married couples; applies to Downstate and Upstate Medical Centers only.

^aExcludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

^bIf headcount exceeds bedcount, the accommodation is over-utilized or "crowded". If bedcount exceeds headcount, the accommodation is under-utilized.

^cBedcount of completely unoccupied rooms, suites or apartments.

^dIncludes rooms, suites and apartments.

^eOther types of accommodations, including septuples and octuples with the appropriate adjusted design capacity bedcount, and space used as sleeping quarters not originally designed for that purpose, such as lounges and study areas where the adjusted design capacity bedcount is zero.

^fIncludes accommodations designed as Double Special Rate.

^gSome beds briefly unoccupied as of census date.

^hIncludes converted study rooms.

ⁱIncludes single occupancy at 175% of double rate.

^jConsist of smaller rooms which, together, were designed as suites or apartments to accommodate six students.

^kConsist of large rooms designed to house six students.

^aExcludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

^bThe Central Office of Student Services assigns this numerical value to each campus which, when applied to the number of students housed, determines the number of bed rental waivers that may be utilized for Resident Assistants.

^cThe students shown here as Resident Assistants have received whole or partial bed rental waivers as indicated by the distribution of such waivers. These Resident Assistants perform a range of assignments which vary in type and degree of commitment. Therefore, the ratios shown here do not necessarily reflect differences in Resident Assistant services available to students.

^dIncludes 12 at Cortland whose portion of Bed Rental waived is 0.33.

^eIncludes 35 at Cortland whose portion of Bed Rental waived is 0.33.
